

The MULTIMEDIA TABLE

The MULTIMEDIA TABLE

This table is a modern,
perfectly equipped table which
will give students the
possibility to

- work together and on their own
- online and offline
- with different kinds of material and different techniques.

The MULTIMEDIA TABLE

1. The table is round and the seats can be moved around it, so students can work work together or alone
2. The table is always connected to the Internet, but not all sites can be visited (no games etc.)

The MULTIMEDIA TABLE

3. Students can also study offline with books, pen & paper
4. The surface of the table is a touch screen, so that the students can write on it with their fingers and move documents from one side of the table to the other

The MULTIMEDIA TABLE

5. There is a printer attached to each of these special tables, so students can print the results of their work
6. Each table is equipped with headphones so students can talk to each other or to someone else over the Internet

The MULTIMEDIA TABLE

The MULTIMEDIA TABLE

enables students to combine online and offline, cooperative and individual work with modern and traditional equipment in an enriching environment.
