**a better way to study for students**

## EXAM 1,0 - Study & Relax

In our opinion universities lack rooms in which students can rest and relax.

Even worse, though, is the fact that there are no rooms in which students can work together, in pairs or in groups.

This is why we would like to  
present our idea of  
**a study and relax building  
for students.**

## EXAM 1,0 - Study & Relax

The aim of our project is to educate better-qualified graduates thanks to better learning methods.

The students also have a variety of learning methods like learning alone, in groups, with computers and with experts.

They can also connect the way they learn with personal necessities (e.g. a kitchen, a relax room, the experts).

## EXAM 1,0 - Study & Relax

The idea:

- ✓ variety of learning methods
- ✓ topic rooms with experts
- ✓ membership card
- ✓ only for students

Better-qualified graduates!

## EXAM 1,0 - Study & Relax

The idea of our project is to build or buy a house nearby the campus.

✓ This building will contain some topic rooms and a team of experts to help the students in these specific subjects.

✓ Furthermore there will be a call center available 24/7 and main topics.

✓ In addition, a kitchen is useable round the clock. In these rooms you can find computers with Internet access.

Before you use the rooms you have to decide whether you want to work or have fun and relax.

# EXAM 1,0 - Study & Relax

## Financial aspects

On the one hand we need money to build the house and for some material like computers or books. We also need money for the inventory because it is necessary to have chairs, shelves or desks. We also have to think about the regular expenses (electricity, water, gas or salaries).

On the other hand we will get money because we want to establish a membership card. So if a student wants to join a study group he or she will pay about 1 euro a day.

# EXAM 1,0 - Study & Relax

## Realization

The realization will take two years and we hope to get some support from the university.

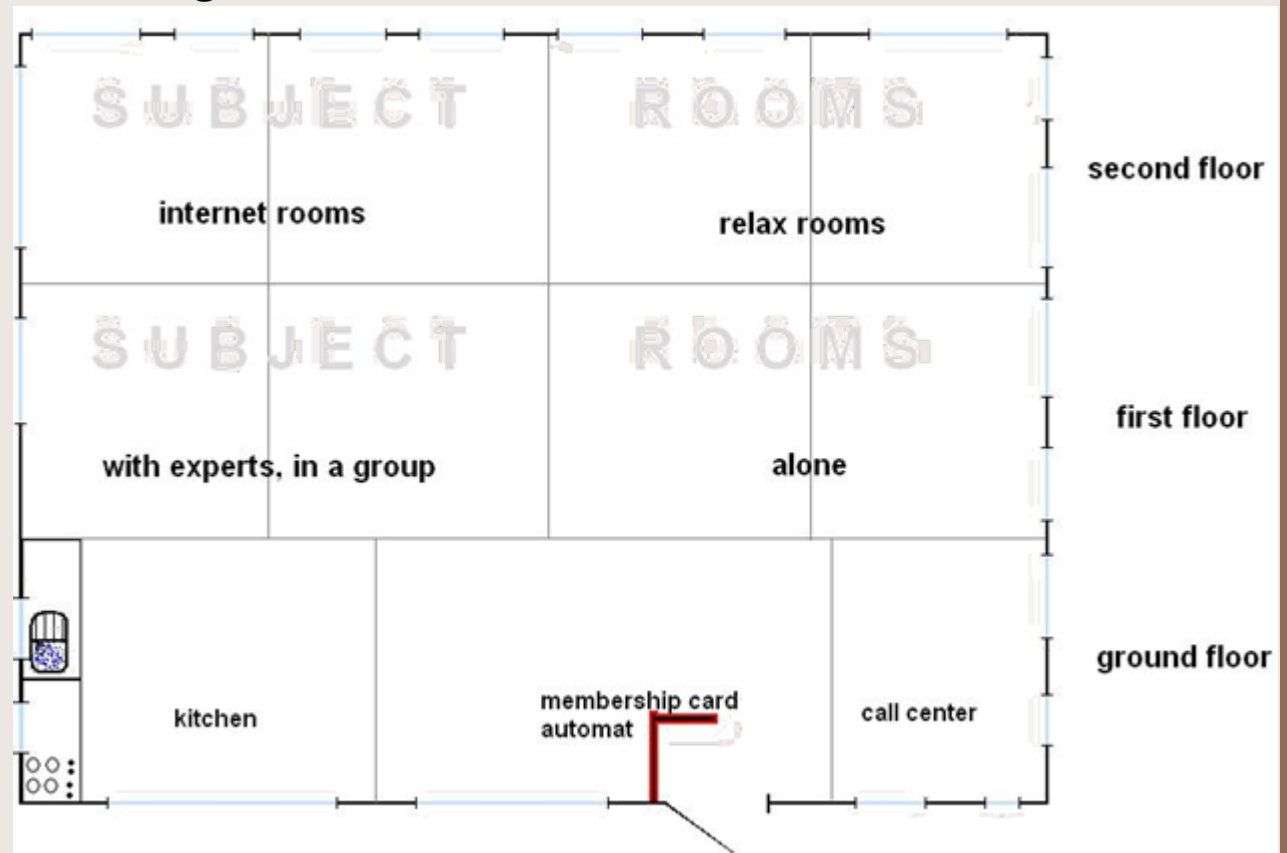

Maybe we will obtain grants from the budget committee and while the building is under construction we want to look for some sponsors (e.g. foundations).

We also expect that some students will want to subscribe to the institution so that a part of our revenue is assured.

## EXAM 1,0 - Study & Relax

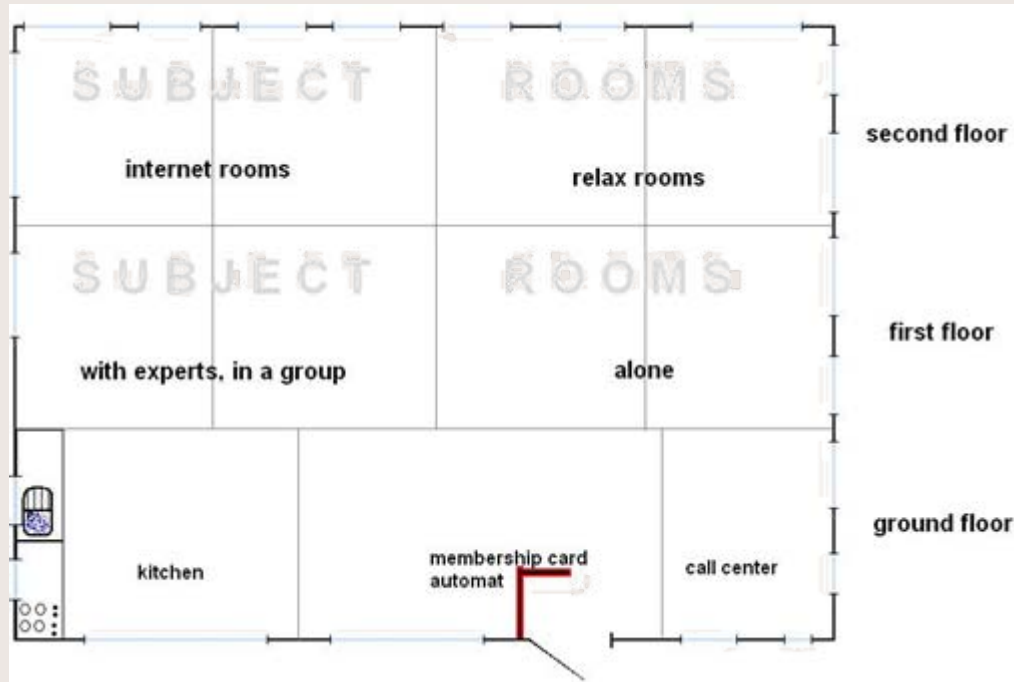

The learning house is only for students, because it is important to create an atmosphere of concentration and study.

A plan of the building:
