It's the

to all young and creative
people 's necessities.

The Students' Learning Sofas

- will consist in rooms and small tables
- will be on the campus
- will be open to all students
- will be open from 8:00 to 22:00
- will offer wireless Internet access

Is it necessary
and important?

YES!!!

Why?

Students need:

- comfort
- modernity
- a relaxing atmosphere
- silence for individual learning
- other students for group-learning

How long
will the preparation take?

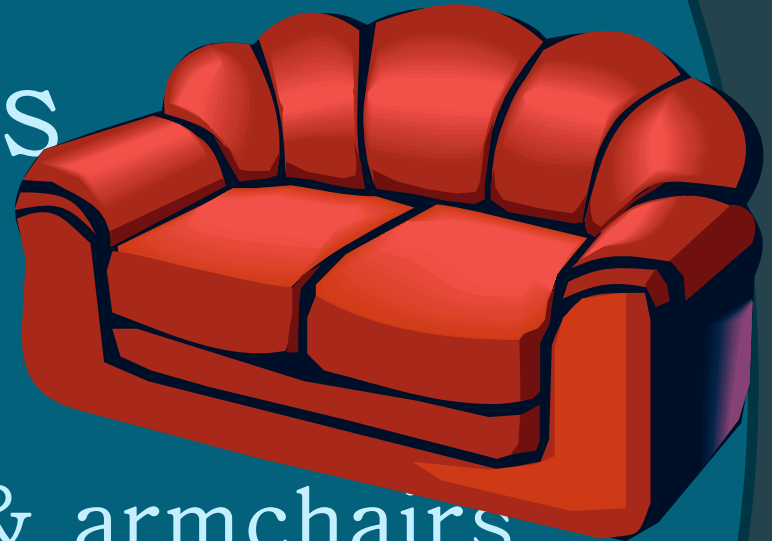

It takes only about 6 months
because we hope to be given
rooms from the
UNIVERSITY.

We need time to furnish and
to equip the rooms and do all
the formalities

How much will the project cost?

We have to furnish the Students'

Learning Sofas
rooms with

- comfortable sofas & armchairs
- computers with access to the Internet

Besides,
the following will be created:

Separate rooms or
boxes with armchairs

for

individual learning

& rooms to work in

small groups .

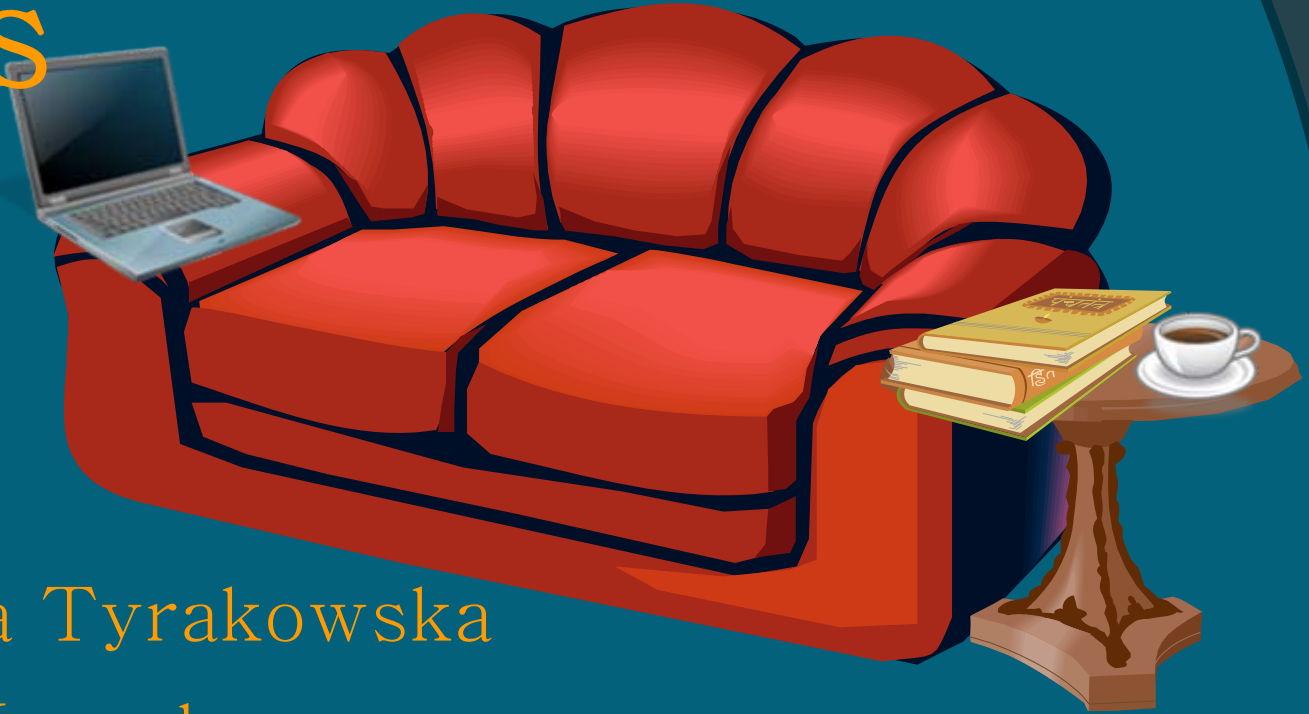

& a corner where
students can make
something to
drink or eat
